

ENVIRONMENTAL POLICY

The company **IKNOWHEALTH S.A.** recognizes that economic growth can and must go hand in hand with a healthy environment and combines its dynamic course with the necessary respect for the environment, its preservation, protection and improvement.

Thus, the Company's Management is committed to the following:

- The integration of environmental thinking in its daily decisions with a view to protecting the environment from its activity.
- Monitoring the development of new, cleaner technologies with a view to their adoption.
- Complying and, where possible, exceeding the requirements of environmental legislation.
- The provision of all necessary resources for the implementation and continuous improvement of the Environmental System.
- The lawful and proper operation of the business, following faithfully and without deviation everything that is mentioned in the current legislation and is related to its activity.
- Ensuring that the objectives and policy of the Environment are defined and are fully compatible with the framework and strategic direction of the Company.
- The continuous improvement of the Environmental Management System.

In the above context, the company aims to:

- The development and institutionalization of simple and flexible operating procedures.
- The continuous improvement of its environmental performance.
- The environmental awareness of its staff, customers and suppliers.
- The rational use of natural resources and energy.
- Minimizing negative impacts on the environment.
- The prevention and response to emergencies that could cause impacts on the environment.

It is the belief of **IKNOWHEALTH S.A.** that the implementation of the Environmental System according to the international standard **ISO 14001:2015** will contribute greatly to the implementation of the company's objectives.

We declare that in the company:

- The protection of the Environment is the guiding principle of all its activities.
- The final judges of the quality of our products/services are the customers.
